25X1	Comments.
25X1	(1) the 1st VP Bereitschaft (Arty) which had been
25X1	stationed in the dusaren Kaserne was scheduled to leave for Saxony and Thuringia on 11 December 1950. No confirmation of the arrival in Erfurt of elements of this Bereitschaft has been received. Considering that the 1st VP Bereitschaft in Erfurt is also engaged in artillery training, the Espeitschaft from Potsdam may have been peoled with that unit.
	(2) The transfer to Schwerin of the 6th VP Bereitschaft (Arty) has not been confirmed.

- (3) The discharges which are believed to have affected the Landespolized were confirmed from other posts.
- (1) It is known that the 9th VP Bereitschaft (Inf) of Land Thuringia and the 5th VF Bereitschaft (Inf) of Land Saxony-Anhalt are stationed in Jera and Leisschfels respectively.
- (5) These strongths of the 1st and 6th VP Bereitschaft may be based on observations in early December 1950, since most of the personnel of these units were said to have departed between 11 and 13 December 1950. See paragraph 1 and 2 of the present report. The cover designations were reported for the first time. They might be correct, since only IVA units carry Roman numeral VII. It is believed that I signifies Landespolized Brandenburg and VI Landespolized Cross Berlin, here referred to as Grenzpolized Ring-um-Berlin.
